SUMMARY

Recent Informatics Engineering graduate from Padang Institute of Technology focused on full-stack web development. Experienced in delivering end-to-end applications using React and Laravel. Strong background in system architecture, database design, and integrating complex features like APIs and machine learning models. Built solid technical foundations through university projects and industry-led training.

EXPERIENCE

Jurnalism 06/2026 - 07/2026
Agraris Indonesia

- Conducting in-depth research and content gathering on agricultural topics to produce informative, well-structured articles for target audiences.
- Writing, editing, and fact-checking news stories and media materials to maintain high reporting accuracy and editorial standards.
- Collaborating with internal teams to align content strategies, manage publication schedules, and effectively communicate key agricultural insights.

Full-Stack Web Developer 01/2026 - 05/2026
Toko Khairul Audio (E-Commerce Platform)

- Developing and launching a web-based e-commerce platform for the car accessory business "Khairul Audio" to streamline online transactions and digitize the product catalog.
- Designing a highly responsive and modern user interface using React, Tailwind CSS, and Vite, seamlessly integrated with a robust backend architecture powered by Laravel.
- Successfully implementing and configuring third-party shipping API integrations to automate logistics calculations, significantly enhancing the customer checkout experience.

Front-End and Back-End Developer Cohort 02/2025 - 07/2025
Coding Camp 2025 by DBS Foundation x Dicoding ↗

- Selected as one of the 2,500 students out of 63,000+ applicants nationwide (top 4% acceptance rate) for an intensive IT training program.
- Completed a structured learning path specializing in Front-End and Back-End development, acquiring industry-standard technical skills.
- Developed comprehensive web applications while strengthening collaborative skills, financial literacy, and professional English proficiency.

Full-Stack Web Developer – "Awakey" Real-Time Drowsiness Detection System 02/2025 - 07/2025
Project Implementation, Coding Camp by DBS Foundation x Dicoding

- Designed and developed "Awakey," an innovative web-based application aimed at improving driver safety through real-time drowsiness detection.
- Integrated machine learning and computer vision algorithms to continuously monitor and analyze eye-closure metrics accurately.
- Engineered the system to utilize client-side processing, ensuring low-latency detection and immediate alerts without relying on continuous server-side communication.
- Delivered a highly responsive and practical system that demonstrates a strong integration of artificial intelligence within web technologies.

Database Designer – "LiSuzi Clinic Outpatient Medical Records" 01/2024 - Present
Institut Teknologi Padang - Final Assignment for the Database Course ↗

- Analyzed clinic requirements to identify key entities, including patients, medical staff, appointments, treatments, and medical history.
- Designed and implemented efficient, normalized database schemas using SQL.
- Formulated complex queries and validation techniques to manage, retrieve, and optimize data access speed for critical patient information.
- Authored a comprehensive technical report detailing the database architecture and query optimization strategies.

EDUCATION

Teknik Informatika S1 09/2022 - 09/2026
Institut Teknologi Padang
IPK 3.44

Front-End and Back End Developer 02/ - 07/2025
Dicoding Indonesia - Scholarship Awardee - Coding Camp powered by DBS Foundation
Score 86.1

Science 2019 - 2022
SMA Negeri 1 Percut Sei Tuan

CERTIFICATES

Agraris Indonesia Internship Program: Partnership with BRIN ↗ 07/2026 - Present
Agraris Indonesia

Coding Camp 2025: Front-End and Back End Developer ↗ 02/2025 - Present
DBS Foundation X Dicoding Indonesia

Introduction to Data Science with R ↗ 09/2023 - Present
DQLab, Xeratic (Universitas Multimedia Nusantara)

Statistics using R for Data Science ↗ 03/2023 - Present
DQLab, Xeratic (Universitas Multimedia Nusantara)

TOEFL ITP ↗ 05/2026 - 05/2028
Kelas.com

Intermediate Web Development ↗ 06/2025 - 06/2028
Dicoding Indonesia

Financial Literacy ↗ 05/2025 - 05/2028
Dicoding Indonesia X Bank DBS Indonesia

Fundamental Front-End Web Development ↗ 05/2025 - 05/2028
Dicoding Indonesia

Cloud Practitioner Essentials (Learn AWS Cloud Basics) ↗ 04/2024 - 04/2027
Dicoding Indonesia

SKILLS

Database & System Architecture

System Architecture Diagrams (ERD, Class Diagrams)

Database Schema Design

MySQL

SQL / Relational Database Management

Backend Development

Python

API Testing & Debugging (Postman)

RESTful API Development

Laravel

Frontend Development

HTML

JavaScript

Vite

Tailwind CSS

React
